Dear Labor:

Trading options in my IRA is something I consider to be critical for my retirement growth. Please do not limit this in any way.

Thinking that the US government needs to protect me from myself is incredibly offensive, especially considering the fiscal management and seemingly insurmountable debt owed by the USG. I am fully confident that my personal financial decisions are better managed by me than by oversight provided by a federal agency.

Knowing that you represent conservative values of Oklahomans, I believe you do agree with me.

Sincerely,

Mr. MARK PRATHER
